1. The following are responses to questions received prior to Friday, February 28, 2019 as per Item 12 (pg. 2) of the General Terms and Conditions:

Q.1: What is the pull point of the tires in use? Meaning what is the minimum diameter to determine a solid tire needs replacement?

A.1: The pull point is no less than 61 inches for recapping purposes.

Q2: Is the price per tire on the bid, includes price on, press on/off fees, every time a tire is replaced?

A2: The price-on must include a complete mount on/off tire on an Authority supplied rim.

Q3: Is the price of rims (wheels) included on the bid price of the tire? We assuming the tires are shipped on rims, and the original rims are provided by the authority.

A3: Yes, the assumptions are correct, the price per tire will not include the price of the rim. The rim will be supplied by the Authority and tire must be shipped mounted.
