## Hospital Plant Operations

**To:** Hospital Procurement

**From:** Plant Operations

**Subject:** Justification for (2) Ford F250

**Date:** November 5, 2021

This requisition is being submitted for the purchase of TWO new Ford F250's with snow plows and snow kit. The F250 version is needed for its ability to handle heavy loads/equipment. This is to add to our fleet so when older equipment is down for repairs we will be able to keep up with the work load and snow removal. A few of trucks are old and will require increased maintenance to keep them running, which is not cost effective at a certain point. In addition, we have additional areas to cover on East Campus with Bed Tower/ MART.

These trucks are used for snow removal, cleaning up the grounds, debris removal, and transporting heavy materials. These trucks must be able to handle well in snow and ice conditions and all weather related conditions.

Prior PO# 1909955

**Subject:** FW: Truck for grounds

Joe/Joe,

Any updates on quotes/cost for these 2 trucks?

Thanks

Joe K., Here are documents from our purchase of an F250 with snow plow in 2018/2019. We bought it from Genesee Valley Ford. Maybe they can send us a current quote. (This delivery took about 16 weeks.)

Per my notes, some of the Ford dealers didn't want to give us a quote because they know Purchasing will do a mini bid. On this last purchase, we submitted a requisition for a penny with the specs of the vehicle. Purchasing did the mini bid and then we

funded it. Purchasing doesn't want to do the mini bid if we may cancel once we know the cost.

I'm not sure if Mike/Carol want a dollar amount to approve before we proceed with the mini bid.

Thanks  
Kris

Joe S., Per our conversation yesterday, we have written up the specifications for TWO Ford F250's. Please confirm that we can submit the requisition for Purchasing to proceed with the mini bid. Once the bid is complete, Purchasing will notify of us of the actual cost and Denise can transfer the funding to us. The total funding available is \$91k.
